

AGRI-DEE

A water-miscible source of Vitamin D3

CONTAINS: Each 4 oz. bottle contains 8,000,000 I.C.U. of Vitamin D3

Physical Description: Clear liquid; viscosity of salad oil.

Packaging: 32 oz. bottle; 6 bottles per carton.
Also available in 5-gallon pail and 55-gallon drum.

Solubility: Excellent

Indications: To help compensate for Vitamin D3, which is no longer available in adequate amounts because of depressed feed consumption, increased needs or malabsorption.

Suggested Uses: In the presence of mold or fungi, when eggshells are soft and thin, during evidence of swollen joints, stiff gait, rickets, leg weakness, malformed bones and soft beaks.

Mixing Directions: For *supplementation*, mix ½ oz. per 128 gallons of drinking water. For water proportioners delivering 1 oz. of stock solution per gallon of drinking water, mix ½ oz. per 1 gallon.
For *stress*, double the usage level. Prepare fresh solutions daily.

Consumption Guide: In hot weather with higher water consumption, divide the below numbers in half.
